Risk Management and Valuation Blog for \$30 Trillion Institutional Investment Industry

TRUMBULL, Conn.--(BUSINESS WIRE)--Recognizing the continued need for actionable information about institutional investment best practices, Dr. Susan Mangiero offers analysis of critical issues affecting the \$30+ trillion global buy side industry. This unique investment risk management and valuation blog at www.goodriskgovernancepays.com serves as a resource for trustees, board members, attorneys, money managers and financial advisors with asset allocation, governance, risk management and fiduciary oversight responsibilities.

According to Dr. Mangiero, "Investment risk governance is more important than ever before. As billion dollar losses continue to make headlines, fiduciaries and their counsel continue to be challenged with volatile markets, a slew of new mandates and investment complexity that requires rigorous due diligence. Litigation is increasing at a fast clip and investment professionals must absolutely embrace and demonstrate an understanding of risk management and valuation issues. Post-Madoff and the credit crisis, there is no room for complacency."

Dr. Mangiero is a CFA charterholder and a certified Financial Risk Manager. She has provided testimony before the ERISA Advisory Council, the OECD and the International Organization of Pension Supervisors. She has served as an expert witness in arbitration and court matters as well as offering behind-the-scenes forensic analysis, calculation of damages, rebuttal report commentary, financial model reviews and policy and procedure assessments. She has over twenty years of experience in capital markets, global treasury, asset-liability management, portfolio management, economic and investment analysis, derivatives, financial risk controls and valuation. She has worked for organizations such as the General Electric Company, PricewaterhouseCoopers LLP, Bank of America and Bankers Trust. Her time spent on several trading desks, in the areas of fixed income, foreign exchange, swaps, futures and options, gives her a firsthand knowledge of market dynamics.

Dr. Mangiero is the author of *Risk Management for Pensions, Endowments, and Foundations*, a primer on risk and valuation issues, with an emphasis on fiduciary responsibility and best practices. She is completing a second book about risk management and investment governance. Her articles have appeared in *Expert Alert*, *Hedge Fund Review*, *Investment Lawyer*, *Valuation Strategies*, *RISK Magazine*, *Journal of Indexes*, *Family Foundation Advisor*, *Expert Evidence Report*, *Bankers Magazine* and the *Journal of Compensation and Benefits*. Dr. Mangiero has written chapters for the *Litigation Services Handbook* and *The Handbook of Interest Rate Risk Management*.
